About Sentinelle Medical Inc.

Sentinelle Medical Inc. is a leading developer of breast MRI coils and advanced 3D visualization software solutions. The award winning Vanguard line of MRI coils and the Aegis line of software solutions have been designed from the ground up to achieve clinical excellence, solving the real world problems radiologists, technologists and oncologists encounter in their efforts for earlier detection and better treatment of cancer. With this focus, Sentinelle has developed industry leading products and patented technologies that optimize image quality, interventional access, patient comfort and clinical workflow efficiencies. Sentinelle continues to drive these innovations through partnerships with leading MRI manufacturers including GE Healthcare, Siemens Healthcare and Toshiba Medical Systems, turning these MRI's into powerful tools in the fight against cancer. Sentinelle products are used in leading cancer and imaging sites throughout North America including Dartmouth-Hitchcock Medical Centre, H. Lee Moffitt Cancer Center and Research Institute, Mountain Medical Physician Specialists, Radiology Ltd., Scripps Memorial Hospital, Sunnybrook Health Sciences Centre, University Health Network and Windsong Radiology Group.

Founded in 2004, Sentinelle Medical is a privately owned medical device company based in Toronto, Ontario. Sentinelle's products are the result of diagnostic imaging research initially conducted at Sunnybrook Health Sciences Centre and the University of Toronto Medical Biophysics Department.

Sentinelle Medical's founder and president, Cameron Piron, has been recognized for outstanding leadership and innovation through several prestigious awards, including the 2008 Premier's Catalyst Award for Best Young Innovator of the Year, the 2008 Innovator of the Year Award by R&D Magazine, Canada's Top 40 Under 40 Award for 2009, and most recently the 2009 Dave Mitchell Award of Distinction as part of the Manning Innovation Awards.
